1\06\2026

Dear Hiring Manager,

I am Hasim, a second-year B.Com (General) student, and I am applying for a Warehouse / Inventory Internship in your organization. I have developed practical knowledge in warehouse operations and inventory management through self-learning and hands-on practice.

I have created an Excel-based inventory system where I managed stock records for 100+ items, tracked stock in and out movements, and maintained accurate data. I am skilled in Microsoft Excel, Power BI, and data handling, and I also have a basic understanding of ERP systems and barcode-based tracking.

I am a detail-oriented and adaptable individual who focuses on accuracy, efficiency, and continuous improvement.

I am eager to apply my skills in a real-world environment and gain hands-on experience in warehouse and inventory operations as part of my career in Supply Chain Management.

I am available to join from JUNE 17 2026, and I would welcome the opportunity to contribute to your team while learning from industry professionals.

Thank you for your time and consideration. I look forward to the possibility of discussing my application.

Sincerely,

Hasim

Bachelor of Commerce

[Crescent University]
Expected Graduation: 2027
Currently pursuing Second
Year

Skills

- Microsoft Excel (Advanced Functions, Pivot Tables, Charts)
- Microsoft Word
- Microsoft PowerPoint
- Power BI
- Power Query
- TallyPrime
- SQL Fundamentals
- Dashboard Development
- Business Intelligence

ACADEMIC PROJECT

Inventory Analytics Dashboard 2025

Developed an Inventory Analytics Dashboard using Microsoft Excel and Power BI to monitor and analyze inventory performance. Created key performance indicators (KPIs) to track Total Stock, Stock In, Stock Out, and Low Stock Products. Designed interactive visualizations, including bar charts, pie charts, line charts, and slicers, to provide meaningful business insights. Utilized Power Query for data cleaning, transformation, and preparation. Applied inventory management concepts such as Opening Stock, Closing Stock, Reorder Level, and FIFO (First In, First Out) methodology. Incorporated Tally Prime inventory concepts, including Purchase Vouchers, Sales Vouchers, Stock Groups, Inventory Vouchers, and Warehouse Management. Analyzed inventory movement, supplier performance, and stock availability to support effective inventory monitoring and decision-making. Tools used: Microsoft Excel, Power BI, Power Query, and Tally Prime Concepts.
